

PROGRAM AND PROJECT MANAGEMENT

Project management is foundational to the success of any complex project – whether clinical, revenue cycle or IT systems focused. Jacobus provides skilled Program and Project Managers (PMs) who bring proven methodologies and rapid delivery to successfully launch and execute on projects. Our Project Managers deliver on time, in budget and in scope – while managing risk and critical success factors.

Jacobus Project Managers bring experience in hospital operations and IT and are experts in project definition, governance, resource planning and cost estimation. Our Program & Project Managers provide oversight, task management, monitoring, documentation, issue and risk management, and reporting. At project closure we deliver a professional Book of Knowledge to ensure that knowledge transfer is complete to enable sustained project benefits.

For healthcare IT oriented projects, we have developed governance structures and project plans that closely align with leading HCIS systems vendor's best practice— whether for a new implementation, an optimization or an upgrade.

Our Project Management Services Include:

- *Project Definition, Estimation and Charter Development*
- *Detailed Project Planning, Microsoft Project Plan, Resource, Schedule and Work Task Breakdown*
- *Governance Definition and Launch*
- *Project Branding, Marketing and Communication*
- *Project Execution - Resource & Budget Tracking, Work Task Monitoring, and Milestone Management and Reporting*
- *Project Control - Issue, Risk, Variance, Change and Scope Management*
- *Project Closure*

Program Management and Quality Oversight

For hospitals seeking to strengthen their in-house Project Management expertise or to establish Program and Portfolio Management, Jacobus provides a complete set of advisory services, tools, best practice policies, and educational materials to equip your staff, help establish a Program Management Office or to just make project management a core competency of your organization.

For all of our projects, we provide Quality Management to ensure satisfaction during the project lifecycle. We monitor scope, budget, timelines and deliverables to ensure that our projects continuously meet client expectations, key milestones and strategic objectives.

Jacobus provides consulting services for leading healthcare information systems across the continuum of care. We support clinical and financial systems in ambulatory, clinics, acute care, rehab, long term care and home health settings. Jacobus knowledge experts, along with our proven tools and methodologies support the entire IT lifecycle, including: strategic planning, readiness assessment, program and project management, workflow redesign, system implementation and optimization, testing, certification, education, training and go-live support.

"Our experience with Jacobus is excellent – I would say one of the best vendors I've worked with. The individuals are very professional, experienced, and knowledgeable of our system. They far exceeded our expectations and that is why they continue to assist us in meeting our goals."

Cindy Peterson, Chief Information Officer- Henry Mayo Newhall Memorial Hospital

About Jacobus Consulting

Jacobus Consulting is a leading process improvement and healthcare IT services firm that assists providers to transform clinical systems, optimize financial results, and improve IT performance.
