

MEDITECH

MEDITECH SYSTEM SERVICES

Seeking MEDITECH Consulting Services or Migrating to Client/Server 6.0?

Jacobus provides a “one-stop shop” for the best in MEDITECH expertise – including MAGIC, Client/Server 5.6 and 6.0. Our consultants bring MEDITECH hands on skill, along with years of hospital operational experience. We combine best-practice MEDITECH knowledge, process redesign and user requirement expertise, expert project management and winning methodologies that get the most from MEDITECH capabilities. Our suite of MEDITECH services include:

- *Client/Server 6.0 Implementation and Migration Services*
- *Meaningful Use, Readiness and MEDITECH Optimization Assessments*
- *Project Management and Process Redesign Tuned to MEDITECH Methodologies*
- *Advanced Clinical and Ancillary Systems Implementation*
- *Module Implementation, Optimization and Upgrades*
- *NPR & 6.0 Reporting, and Interface Development Services*
- *Training and Education*

For over a decade Jacobus has assisted hospitals and clinics to get the most from their MEDITECH systems with solutions tailored for the MAGIC, Client/Server 5.6 and 6.0 platforms. We provide the complete lifecycle of services that support implementation and optimization, including; assessment, planning, project management, process redesign, system design and build, testing, training go-live and deployment. Our MEDITECH clinical and financial experts bring proven knowledge, tools and methodologies for all Advanced Clinical, Ancillary, Revenue Cycle, General Financials and Administrative modules, as well as C/S 6.0 migrations.

MEDITECH 6.0 Migrations and New Module Implementations

Jacobus Client/Server 6.0 and 5.6 and MAGIC expertise covers all modules for planning, design, build, test, go-live, training and support for single or multi-facility implementations. In all implementations, we go beyond dictionary rebuild and migration to align end-user requirements and workflow processes.

We design for objectives that include meaningful use, clinical documentation optimization and

decision support, ambulatory integration, HIE, patient safety and quality and revenue cycle optimization. Our methodologies establish optimal governance and Core Team structure so work progresses efficiently, timelines are met and user adoption is maximized.

Jacobus revenue cycle expertise covers all modules to ensure charges are successfully captured while billings and collections are maximized. We provide expertise in dictionary migration and re-build, use of the UPT toolset, build of conversions and interfaces, role based access, as well as technical issues, hardware, infrastructure and medical device planning.

“Our experience with Jacobus is excellent – I would say one of the best vendors I’ve worked with. The individuals are very professional, very experienced, and knowledgeable of MEDITECH. They far exceeded our expectations and that is why they continue to assist us in meeting our goals.”

*Cindy Peterson, Chief Information Officer-
Henry Mayo Newhall Memorial Hospital*

"Jacobus exceeded our expectations and our successful implementation of PCS nursing documentation was a result of their commitment and dedication. With the help of Jacobus we have transformed ourselves so successfully that the nurses today say they can't imagine going back to a paper system."

*Judy Mass, Chief Nursing Officer-
Valley Presbyterian Hospital*

MEDITECH Advanced Clinical, Ancillary, Ambulatory, Therapies, Scanning & Archiving, and DR

Jacobus clinical expertise covers all patient care, provider and ancillary modules for ambulatory, acute, outpatient, and long term care settings. This includes NUR, PCS, BMV, EDM, ORM, POM, PCM, PHA, LAB/LIS, LSS, ITS and all of the "therapies" (RT, PT, OT, etc). Our clinical consultants understand clinical requirements, processes and adoption issues. Our pharmacy consultants understand meaningful use and supporting advanced clinical applications such as BMV and EMAR.

We supply CWS and OM expertise for optimized scheduling and for OM clean-up and Order Source implementation in preparation for CPOE (POM) and utilizing of order sets. Our Scanning and Archiving (SCA) and Data Repository (DR) consultants are skilled at 6.0 migration support.
