

JACOBUS HEALTHCARE IT SYSTEMS SERVICES

Jacobus provides system expertise along with tools and methodologies that transform healthcare in settings from ambulatory, acute care, behavioral, rehab, SNF, long term and home care. We support providers of all sizes including community and critical access hospitals, multi-facility integrated delivery networks, and physician group practices and clinics.

Jacobus has a 10 + year history supporting many of today's leading healthcare IT systems, including:

- *MEDITECH – all platforms (MAGIC, Client/Server 5.6 and 6.x)*
- *LSS Data Systems – Medical and Practice Management*
- *Siemens MedSeries4*
- *Cerner Millennium*
- *McKesson STAR2000 – Patient Accounting and STAR Financials*
- *Leading vendor systems for interfacing, claims management/claims scrubbing, eligibility, case management and utilization review, and leading report writers*

Services for the Entire IT Systems Lifecycle

For over a decade we have supported the entire healthcare IT systems lifecycle through services that include:

- *Healthcare IT Strategic Planning and Governance*
- *HCIS Services – Implementation, Optimization and Upgrades*
- *Program and Project Management*
- *Opportunity Assessment*
- *Process Mapping and Redesign*
- *Systems Testing Services*
- *Systems IT Training and Education*
- *Reporting and Information Dashboards*
- *Systems Conversion, Interfacing and Integration*

"Our experience with Jacobus is excellent – I would say one of the best vendors I've worked with. The individuals are very professional, experienced, and knowledgeable of our system. They far exceeded our expectations and that is why they continue to assist us in meeting our goals."

Cindy Peterson, Chief Information Officer – Henry Mayo Newhall Memorial Hospital

About Jacobus Consulting

Jacobus Consulting is a leading process improvement and healthcare IT services firm that assists providers to transform clinical systems, optimize financial results, and improve IT performance. We combine strategic thinking, operational and patient care experience, project and process best practice, and systems expertise to empower efficiency in healthcare delivery. For over a decade across North America we have been **Advancing Healthcare Together.**

"With Jacobus problem solving and coaching skills, we saw favorable gains to our financial position and movement towards meeting our strategic goals."

David Keith, Chief Operating Officer – Kern Medical Center

"With the help of Jacobus we have transformed ourselves so successfully that the nurses today say they can't imagine going back to a paper system."

*Judy Mass, Chief Nursing Officer -
Valley Presbyterian Hospital*

Support for Meaningful Use of the EMR

To support Patient Care and Meaningful Use initiatives, we provide a suite of quality and clinical informatics services that not only support certification, but also drive gains in efficiency, quality, and patient safety. Jacobus brings expertise in CPOE and EMR patient care and clinical documentation systems, OR and ED systems, ancillaries and information exchange between providers across the continuum of care. Services include:

- *Readiness Assessment*
- *Meaningful Use Planning and Roadmap*
- *Clinical Workflow Redesign and Optimization*
- *Clinical Documentation Planning and Standardization*
- *Clinical Decision Support*
- *Meaningful Use Pre-Certification Testing Services*
- *Clinical Informatics Training*
- *Quality Informatics Planning and Development*
- *Care Model Optimization for Patient Protection and Affordable Care Act*

IT Services for Revenue Cycle Performance and Preparation for Accountable Care

Jacobus has helped numerous hospitals through our "5 Pillars of the Revenue Cycle Methodology" to dramatically improve revenue, increase collections, and improve the patient experience. Services now support healthcare reform transformation to bundled payments and accountable care for the continuum of care, including:

- *Payment Model Migration and Optimization - ACO, Medical Home, Bundled Payments*
- *ICD-10 and 5010 Preparedness and Implementation*
- *Revenue Cycle Process and Performance Optimization*
- *Revenue Cycle Systems*
- *Revenue Cycle Leadership and Staff Augmentation*
- *Patient Access Process and Systems Optimization*
- *Charge Capture and Charge Master (CDM) Optimization*
- *Business Office Billing, Collections and Denials Management*
- *SWAT Teams - Cash and Revenue Improvement*
- *KPI's - Key Performance Indicators and Dashboards*

"I have worked with Jacobus at 3 hospitals. Their approach breaks down silos and helps create long lasting improvement, and in the process drive significant increased revenue and cash collections."

*Melanie Van Winkle, Chief Financial Officer -
Mammoth Hospital*
